

SOLAR CHARGING GATE KIT

Solar Gate System				
Kit #	Watts	Amps	# Panels	Regulator
ZS-5G	5	0.3	1	N/A
ZS-5G-6	5	0.3	1	6 Amp
ZS-10G	10	0.6	1	N/A
ZS-10G-6A	10	0.6	1	6 Amp
ZS-20G	20	1.1	1	N/A
ZS-20G-6A	20	1.1	1	6 Amp

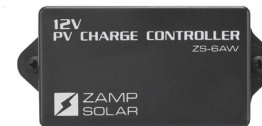

Our Solar Charging Gate Systems come complete and are compatible with off the shelf gate actuator systems. Choose 5, 10 or 20 watt options to fit your application and location. With six kits available, Zamp Solar offers a large selection sure to fit your demands. Zamp Solar Gate Kits are available with or without a solar controller. Solar charging is a cost reducer overrunning long electrical lines to power remote gates. Zamp Solar has the answer to compatibility & affordability!

Kits Include - Monocrystalline Solar Module, Voltage Regulator (Optional), 12' Wire, Mounting Bracket, Hardware & Connectors.

Available in 5, 10 and 20 Watt Kits

Our 6 Amp Solar Charge Controllers are Waterproof/Weatherproof for all types of weather.
